

# Model BF 720 | Standard-Incubators with forced convection

The BINDER incubator of the BF Avantgarde. Line series with forced convection is suitable for all gentle incubation applications, particularly under a full load and large batch throughputs. This incubator is extremely homogeneous and has quick recovery times.

### **BENEFITS**

- · Excellent temporal and spatial temperature accuracy
- · High process reliability
- 100°C disinfection routine

Model 720

#### IMPORTANT FEATURES

- Temperature range: +10°C above ambient temperature to +100°C
- High temperature accuracy thanks to APT.line™ technology
- · Forced convection
- Controller with LCD display
- Electromechanical control of the exhaust air flap
- Inner door made of tempered safety glass

- · 2 chrome-plated racks
- 4 stable castors, two with brakes, from 720 liters
- Class 3.1 integrated independent temperature safety device (DIN 1288o) with visual alarm
- Ergonomic handle design
- USB port for recording data

## ORDERING INFORMATION

All technical data is specified for unloaded units with standard equipment at an ambient temperature of  $\pm 2^{\circ}$  C  $\pm 3^{\circ}$  C and a power supply voltage fluctuation of  $\pm 10^{\circ}$  %. The temperature data is determined in accordance to BINDER factory standard following DIN 12880, observing the recommended wall clearances of 10 % of the height, width, and depth of the inner chamber. Technical data refers to 100 % fan speed. All indications are average values, typical for units produced in series. We reserve the right to change technical specifications at any time.
